On the Meetings Page, you find all meetings of the Paris Pact Initiative at expert and policy level since 2010.

The colourful icons above the meeting title indicate the Vienna Declaration pillar (or for meetings before 2012: the Rainbow Strategy Paper) which the meeting relates to.

Alternatively, you can find meetings related to a particular pillar through the Pillar Portal (see “What’s new on ADAM?” Part 1).

On the homepage, click on one of the large pillar icons, e.g. the icon for “Regional Initiatives” ...

... and then on the subsequent page, click on the blue bar labelled “Meetings”:

In this way, the meetings database is filtered for meetings related to the Regional Initiatives pillar.

By clicking on a meeting title, you can access detailed information about the meeting:

On the detailed meeting view you find meeting related documents for download such as the summary report, and presentations, statements and other relevant documents delivered or disseminated at the event.

“What’s new on ADAM?” Part 3 explains where to find the recommendations emanating from Paris Pact Expert Working Groups and endorsed at the annual Policy Consultative Group Meetings.
